

Dear FCC:

I urge the FCC to re consider and reject the NAB's petition 04-160.

I love satellite radio and it provides me with services that are unavailable through regular radio broadcasts such as regular traffic and weather broadcasts.

I love regular on the air radio (I belong to the National Radio Club an organization dedicated to regular over the air broadcasts for over 70 years!) but also feel that this service is vital while I listen to this paid service.

I depend on satellite radio for my listening needs and urge you to allow traffic and weather information to continue. It meets my needs as a consumer and lover of all types of broadcasts radio.

The NAB's petition should be rejected!

Sincerely,

Willlliam Piva
